

専攻, 課程 : G30 (地球環境科学プログラム) 前期課程
科目区分 : I類
授業形態 : 講義
担当教員 : 大路樹生 教授, HUMBLET Marc Andre 特任准教授
単位数 : 2
学期 : 秋学期, 集中
講義時間帯 : 水曜 3限
講義場所 : 博物館講義室

● 目的・ねらい

The purpose of this seminar is to understand ancient organisms and paleoenvironments through field trips, and to study the interrelation between biota and environments.

[Corresponding to DP1]

● 授業内容

Contents:

This seminar is conducted based on the following schedule (tentative). Those who are interested in this seminar are advised to attend the first lecture on Oct. 8. The schedule is flexible and will be fixed during the first lecture.

1. Oct. 8, 13:00-14:30: Outline of the seminar. Held at the lecture room of the University Museum (3rd Floor).
2. Oct. 29, 13:00-14:30: lecture. Held at the lecture room of the University Museum (3rd Floor).
3. One day field trip to Mizunami (Gifu Prefecture, date not fixed).
4. One day field trip to Megami Limestone (Shizuoka Prefecture, date not fixed).
5. Follow-up discussion about the field trips. Held at the lecture room of the University Museum (3rd Floor).

[END]

● 成績評価方法・基準

Scores will be determined by the attendance to the lectures, participation to the field trip, the degree of understanding to this subject, and the final report.

● 教科書

● 参考書ならびに授業を受けるに当たっての注意事項等

● 授業言語

- ・スライド・資料 : 日英併記
- ・口頭説明 : 日英両方
- ・英語による質問への対応 : 可
