

Course 講義名	<b>Science of Materials</b>
Instructor 教員名	Bernard Gelloz
Email	bernard.gelloz@nagoya-u.jp
Code 講義コード	0062231
Day and Period 曜日と時間	Tue 2 (10:30-12:00)
Semester 開講期間	Fall Semester, full
On-Off line 対面/オンライン	Not decided yet
Participation 指定時間の出席	Yes, but also available online as a recording.
Online tool オンラインツール	NUCT Microsoft Teams
Lecture room 講義室	
English level 講義の英語レベル	Intermediate
Content level 講義内容の難易度	Easy-Intermediate
Course style 講義形式	Regular Lecture Recommend active participation in class
Evaluation methods 主な評価方法	Final exam Mid-term exam In-class participation
Audit 聴講の可否	聴講可
Message from the instructor 教員からのメッセージ	 <p><i>The course is easy, without complicated maths. but it still touches important concepts of science and materials. So you will see some easy formulas and will have to use your brain to listen and understand. You will realize that the different branches of sciences, like mechanics, optics, thermodynamics, chemistry etc are in fact described by the same universal concepts, making the understanding of everything more simple.</i></p>
